PRIMARY EXAMINER

***Reasons for Allowance***

The following is an examiner's statement of reasons for allowance: the prior art of record, absent applicant's own disclosure, fails to teach the entire combination of elements set forth in the claimed invention. Specifically, the prior art of record fails to teach the post-encircling sleeve of the at least one shelf having a post-receiving opening, the pin-receiving indent is a rectangularly shaped recess having first and second closed ends facing said post-receiving opening and at least partial first and second sides communicating with the post-receiving opening, the pin is an elongated element having first and second ends and a cylindrically shaped pin body portion, and the pin-receiving indent engages the first and second pin ends and the cylindrically shaped pin body portion when the pin operably secures the at least one shelf to the post. See lines 13-20 of the claim.

Additionally, it should be noted that a double patenting rejection based on U.S. Application Serial No. 09/640,052 cannot be made at least because the 09/640,052 application has been abandoned.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
